THE LIBRARY OF THE

JUN 12 1963

UNIVERSITY OF ILLINOIS

The basic data for the information in this bulletin is obtained from the "Statement of Taxes and Indebtedness" submitted to the Wisconsin Department of Taxation by the village and city clerks. In line with our previous policy, levies for school tuition and transportation have been transferred from Local Tax (Col. 11) to School Tax (Col. 13). This transfer is necessary because those villages and cities which are part of a high school district show school tuition and transportation levies in School Tax (Col. 13) whereas those villages and cities or parts thereof which are not a part of a high school district show school tuition and transportation levies in Local Tax (Col. 11).

In cities, local levies made for school building indebtedness have also been transferred from Local Tax to School Tax.

It is the intent of these transfers to show all taxes for school purposes in the School Tax column.

The basic data for the information in this bulletin is obtained from the "Statement of Taxes and Indebtedness" submitted to the Wisconsin Department of Taxation by the village and city clerks. In line with our previous policy, levies for school tuition and transportation have been transferred from Local Tax (Col. 11) to School Tax (Col. 13). This transfer is necessary because those villages and cities which are part of a high school district show school tuition and transportation levies in School Tax (Col. 13) whereas those villages and cities or parts thereof which are not a part of a high school district show school tuition and transportation levies in Local Tax (Col. 11).

In cities, local levies made for school building indebtedness have also been transferred from Local Tax to School Tax.

It is the intent of these transfers to show all taxes for school purposes in the School Tax column.

THE TOTAL "TAX" IN COLUMN 4 MAY VARY IN MINOR AMOUNTS FROM THE SUM OF THE RELATED FIGURES IN COLUMNS 8, 9, 11, and 13 DUE TO ROUNDING.

THE "FULL VALUE RATE" IN COLUMN 6 MAY VARY IN MINOR AMOUNTS FROM THE SUM OF THE RATES IN COLUMNS 8, 10, 12, and 14 DUE TO ROUNDING.

COLUMN 7 EXPLAINED: THIS SHOWS THE NET FULL VALUE TAX RATE ON REAL ESTATE AND PERSONAL PROPERTY (OTHER THAN "STOCKS") AFTER DEDUCTING THE APPROXIMATELY \$50 MILLION DOLLARS OF CREDITS WHICH WERE ALLOCATED ACCORDING TO THE EQUALIZING FORMULA ENACTED BY THE 1961 LEGISLATURE AS SECTION 77.63.

*2 INDICATES VILLAGES AND CITIES WHICH ARE IN TWO COUNTIES AS FOLLOWS:

VILLAGE: ABBOTSFORD, CLARK-MARATHON; BAYSIDE, MILWAUKEE-OZAUKEE; BELLEVILLE, DANE-GREEN; BLANCHARDVILLE, IOWA-LA FAYETTE;
BROOKLYN, DANE-GREEN; DESOTO, CRAWFORD-VERNON; LIVINGSTON, GRANT-IOWA; RANDOLPH, COLUMBIA-DODGE;

VIOLA, RICHLAND-VERNON; UNITY, CLARK-MARATHON

CITIES: APPLETON, CALUMET-OUTAGAMIE; BERLIN, GREEN LAKE-WAUSHARA; COLBY, CLARK-MARATHON; EAU CLAIRE, CHIPPEWA-EAU CLAIRE;

The basic data for the information in this bulletin is obtained from the "Statement of Taxes and Indebtedness" submitted to the Wisconsin Department of Taxation by the village and city clerks. In line with our previous policy, levies for school tuition and transportation have been transferred from Local Tax (Col. 11) to School Tax (Col. 13). This transfer is necessary because those villages and cities which are part of a high school district show school tuition and transportation levies in School Tax (Col. 13) whereas those villages and cities or parts thereof which are not a part of a high school district show school tuition and transportation levies in Local Tax (Col. 11).

In cities, local levies made for school building indebtedness have also been transferred from Local Tax to School Tax.

It is the intent of these transfers to show all taxes for school purposes in the School Tax column.

01546
WISCONSIN DEPARTMENT OF TAXATION

BULLETIN Nos. 265 and 365 COMBINED

MARCH 1966

THE LIBRARY OF THE

VILLAGE and CITY TAXES 1965

MAY 10 1966

UNIVERSITY OF ILLINOIS

This bulletin contains a summary of the general property assessments and taxes for all villages and cities in Wisconsin. The reader is also provided with basic figures which are necessary in making certain comparisons between taxation districts.

POPULATION. The 1960 census is used as the basis of population and is updated according to annexations, detachments and incorporations which have occurred since then.

COLUMN 1. "ASSESSED VALUE." As of May 1 of each year, the local assessor places a value on all taxable general property and makes up an assessment roll. The total of this roll is the "assessed value."

COLUMN 2. "FULL VALUE." As of May 1 of each year, the Property Tax Division of the Wisconsin Department of Taxation is charged with the responsibility of determining the actual market value of all the general property in each taxation district in Wisconsin. Both column 1 and column 2 relate to the same property.

COLUMN 3. "ASSESSMENT RATIO." This is derived by dividing the assessed value by the full value and indicates the average level at which all taxable general property was valued by the local assessor for property tax purposes. These ratios vary substantially; running from lows around 20%, to highs of over 100%.

COLUMN 4. "TOTAL GENERAL PROPERTY TAX." This figure includes only the State, County, Local Government and School taxes. It does not include Special Assessments, Delinquent and Omitted taxes, nor Forest Crop and Woodland taxes, nor does it include any of the Occupational taxes.

COLUMN 5. "GENERAL PROPERTY TAX LOCAL RATE." The tax in column 4 divided by the assessed value in column 1 is expressed in a true rate. To express the rate in dollars per thousand of valuation, move the decimal point three places to the right. Thus .02750 is the same as \$27.50 per \$1000 of value.

COLUMN 6. "GENERAL PROPERTY TAX FULL VALUE RATE." The tax in column 4 is divided by the full value in column 2. This rate is the one with which districts may be most logically compared because it is as though all the districts were assessed at 100% instead of some fraction thereof.

COLUMN 7. "EFFECTIVE REAL ESTATE FULL VALUE RATE." In 1961, the legislature enacted a property tax relief law whereby the state allocates monies to pay part of the property taxes in those tax districts which have a three year average computed full value tax rate in excess of 14 mills. A "tax credit rate" is calculated by dividing the amount of such tax credit allocated for real estate and personal property (except stocks) by the full value of such real estate and personal property. This tax credit rate is then subtracted from the full value rate in column 6 to give the resulting effective full value rate on said real estate and personal property other than stocks. NOTE: "stocks" include farmers' livestock, merchants' inventories, and manufacturers' materials and finished products. No calculation is made in this bulletin for what the effective tax rate on said stocks might be.

COLUMN 8. "STATE TAX AT .00020 (\$.20 per thousand)." The amount of the state forestry tax is apportioned to each county on the basis of its full value. The counties apportion said amount to the tax districts within their borders on the basis of the districts' full value. Since the tax is apportioned on the basis of \$.20 per thousand dollars of full value, the full value tax rate will also be \$.20 per thousand. Therefore, only the amount of the tax is listed in column 8.

COLUMNS 9 and 10. "COUNTY TAX AND FULL VALUE RATE." The counties raise part of their budget by levying a tax on the districts within their borders. This tax divided by the full value in column 2 gives the rate.

COLUMNS 11 and 12. "LOCAL TAX AND FULL VALUE RATE." This tax figure includes the balance of the money a district actually raised to meet its obligations, expenses, etc., which were not met by other sources of income. It does not include levies for school purposes. In order to arrive at figures which would be comparable, all levies for school purposes which happen to have been levied as "local" taxes, have been transferred into column 13 "school tax." These may include levies for free high school tuition and transportation, vocational school tuition, regular and handicapped, and also city taxes in cities where public schools are administered by a board of education for purposes of payment of principal and interest on school indebtedness, purchase of school sites, construction of school buildings, etc. This adjusted tax divided by the full value in column 2 gives the rate.

COLUMNS 13 and 14. "SCHOOL TAX AND FULL VALUE RATE." This tax figure includes the above transfers as well as other amounts levied by the school authorities against a given tax district in order to meet the balance of the school budget. This adjusted tax divided by the full value in column 2 gives the rate.

The figures and rates in this bulletin are compiled by automatic data processing methods and some rounding occurs.

The total "tax" in column 4 may vary in minor amounts from the sum of the related tax figures in columns 8, 9, 11 and 13 due to rounding.

The "full value rate" in column 6 may vary in minor amounts from the sum of the related rates in columns 8, 10, 12 and 14 due to rounding.

It is believed that, with the above explanations, the summaries on pages 3 and 4 will be self explanatory as well as helpful in understanding some of the growth in values, taxes and rates.

*2 indicates Villages and Cities which are in two counties as follows:

VILLAGES: BAYSIDE, Milwaukee-Ozaukee; BELLEVILLE, Dane-Green; BLANCHARDVILLE, Iowa-LaFayette; BROOKLYN, Dane-Green; DESOTO, Crawford-Vernon; LIVINGSTON, Grant-Iowa; MONTFORT, Grant-Iowa; RANDOLPH, Columbia-Dodge; UNITY, Clark-Marathon; VIOLA, Richland-Vernon

CITIES: ABBOTSFORD, Clark-Marathon; APPLETON, Calumet-Outagamie; BERLIN, Green Lake-Waushara; COLBY, Clark-Marathon; CUBA CITY, Grant-LaFayette; EAU CLAIRE, Chippewa-Eau Claire; KIEL, Calumet-Manitowoc; MARSHFIELD, Marathon-Wood; MILWAUKEE, Milwaukee-Washington; NEW LONDON, Outagamie-Waupaca; RIVER FALLS, Pierce-St. Croix; WATERTOWN, Dodge-Jefferson; WAUPUN, Dodge-Fond du Lac; WHITEWATER, Jefferson-Walworth

WISCONSIN DEPARTMENT OF TAXATION

BULLETIN Nos. 266 and 366 COMBINED

JUL 12 1967

APRIL 1967

VILLAGE and CITY TAXES 1966

This bulletin contains a summary of the general property assessments and taxes for all villages and cities in Wisconsin. The reader is also provided with basic figures which are necessary in making certain comparisons between taxation districts.

POPULATION. The 1960 census is used as the basis of population and is updated according to annexations, detachments and incorporations which have occurred since then.

COLUMN 1. "ASSESSED VALUE." As of May 1 of each year, the local assessor places a value on all taxable general property and makes up an assessment roll. The total of this roll is the "assessed value."

COLUMN 2. "FULL VALUE." As of May 1 of each year, the Property Tax Division of the Wisconsin Department of Taxation is charged with the responsibility of determining the actual market value of all the general property in each taxation district in Wisconsin. Both column 1 and column 2 relate to the same property.

COLUMN 3. "ASSESSMENT RATIO." This is derived by dividing the assessed value by the full value and indicates the average level at which all taxable general property was valued by the local assessor for property tax purposes. These ratios vary substantially; running from lows around 20%, to highs of over 100%.

COLUMN 4. "TOTAL GENERAL PROPERTY TAX." This figure includes only the State, County, Local Government and School taxes. It does not include Special Assessments, Delinquent and Omitted taxes, nor Forest Crop and Woodland taxes, nor does it include any of the Occupational taxes.

COLUMN 5. "GENERAL PROPERTY TAX LOCAL RATE." The tax in column 4 divided by the assessed value in column 1 is expressed in a pure decimal rate. To express the rate in dollars per thousand, move the decimal point three places to the right. Thus .02750 is the same as \$27.50 per \$1000 of value.

COLUMN 6. "GENERAL PROPERTY TAX FULL VALUE RATE." The tax in column 4 is divided by the full value in column 2. This rate is the one with which districts may be most logically compared because it is as though all the districts were assessed at 100% instead of some fraction thereof.

COLUMN 7. "EFFECTIVE REAL ESTATE FULL VALUE RATE." In 1961, the legislature enacted a property tax relief law whereby the state allocates monies to pay part of the property taxes in those tax districts which have a three year average computed full value tax rate in excess of 14 mills. A "tax credit rate" is calculated by dividing the amount of such tax credit allocated for real estate and personal property (except stocks) by the full value of such real estate and personal property. This tax credit rate is then subtracted from the full value rate in column 6 to give the resulting effective full value rate on said real estate and personal property other than stocks. NOTE: "stocks" include farmers' livestock, merchants' inventories, and manufacturers' materials and finished products. No calculation is made in this bulletin for what the effective tax rate on said stocks might be.

COLUMN 8. "STATE TAX AT .00020 (\$.20 per thousand)." The amount of the state forestry tax is apportioned to each county on the basis of its full value. The counties apportion said amount to the tax districts within their borders on the basis of the districts' full value. Since the tax is apportioned on the basis of \$.20 per thousand dollars of full value, the full value tax rate will also be \$.20 per thousand. Therefore, only the amount of the tax is listed in column 8.

COLUMNS 9 and 10. "COUNTY TAX AND FULL VALUE RATE." The counties raise part of their budget by levying a tax on the districts within their borders. This tax divided by the full value in column 2 gives the rate.

COLUMNS 11 and 12. "LOCAL TAX AND FULL VALUE RATE." This tax figure includes the balance of the money a district actually raised to meet its obligations, expenses, etc., which were not met by other sources of income. It does not include levies for school purposes. In order to arrive at figures which would be comparable, all levies for school purposes which happen to have been levied as "local" taxes, have been transferred into column 13 "school tax." These may include levies for free high school tuition and transportation, vocational school tuition, regular and handicapped, and also city taxes in cities where public schools are administered by a board of education for purposes of payment of principal and interest on school indebtedness, purchase of school sites, construction of school buildings, etc. This adjusted tax divided by the full value in column 2 gives the rate.

COLUMNS 13 and 14. "SCHOOL TAX AND FULL VALUE RATE." This tax figure includes the above transfers as well as other amounts levied by the school authorities against a given tax district in order to meet the balance of the school budget. This adjusted tax divided by the full value in column 2 gives the rate.

The figures and rates in this bulletin are compiled by automatic data processing methods and some rounding occurs.

The total "tax" in column 4 may vary in minor amounts from the sum of the related tax figures in columns 8, 9, 11 and 13 due to rounding.

The "full value rate" in column 6 may vary in minor amounts from the sum of the related rates in columns 8, 10, 12 and 14 due to rounding.

It is believed that, with the above explanations, the summaries on pages 3 and 4 will be self explanatory as well as helpful in understanding some of the growth in values, taxes and rates.

*2 indicates Villages and Cities which are in two counties as follows:

VILLAGES: BAYSIDE, Milwaukee-Ozaukee; BELLEVILLE, Dane-Green; BLANCHARDVILLE, Iowa-LaFayette; BROOKLYN, Dane-Green; DESOTO, Crawford-Vernon; LIVINGSTON, Grant-Iowa; MONTFORT, Grant-Iowa; RANDOLPH, Columbia-Dodge; UNITY, Clark-Marathon; VIOLA, Richland-Vernon

CITIES: ABBOTSFORD, Clark-Marathon; APPLETON, Calumet-Outagamie; BERLIN, Green Lake-Waushara; COLBY, Clark-Marathon; CUBA CITY, Grant-LaFayette; EAU CLAIRE, Chippewa-Eau Claire; KIEL, Calumet-Manitowoc; MARSHFIELD, Marathon-Wood; MILWAUKEE, Milwaukee-Washington; NEW LONDON, Outagamie-Waupaca; RIVER FALLS, Pierce-St. Croix; WATERTOWN, Dodge-Jefferson; WAUPUN, Dodge-Fond du Lac; WHITEWATER, Jefferson-Walworth
